A new recreational dimension for the Adirondack Park

The Adirondack Rail Trail will consist of two continuous segments:

- (1) 40 miles linking Lake Placid, Ray Brook, Saranac Lake, Lake Clear, Tupper Lake and Piercefield.
- (2) 50 miles linking Old Forge, Big Moose, Beaver River, Sabattis and Piercefield.

The northeast section connecting Lake Placid and Piercefield will be compactly surfaced to accommodate thinner-tired road bikes as well as hybrids and mountain bikes. The southwest section connecting Old Forge and Piercefield will, with the tracks and ties removed, be immediately suited for mountain bikes and greatly improved snowmobiling. (A smoother, more compact surface may be subsequently applied.)
